

Here's a step-by-step guide to syncing your Radical CalDAV Calendar with Iphone :

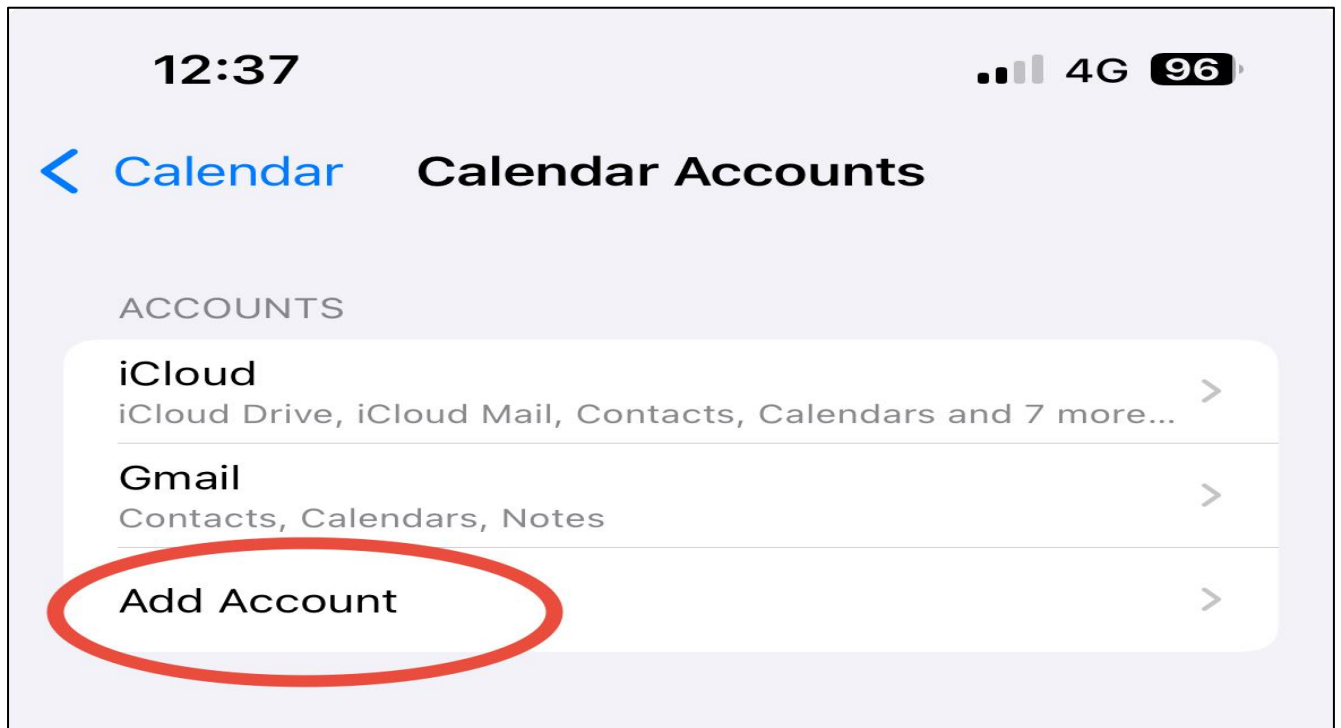

1. Access Radical CalDAV
 - CalDAV URL = <https://caldav.mail25.info/>
 - login the url to get the custom url
2. Open setting and search **calendar**

3. Click on **Calendar Accounts**

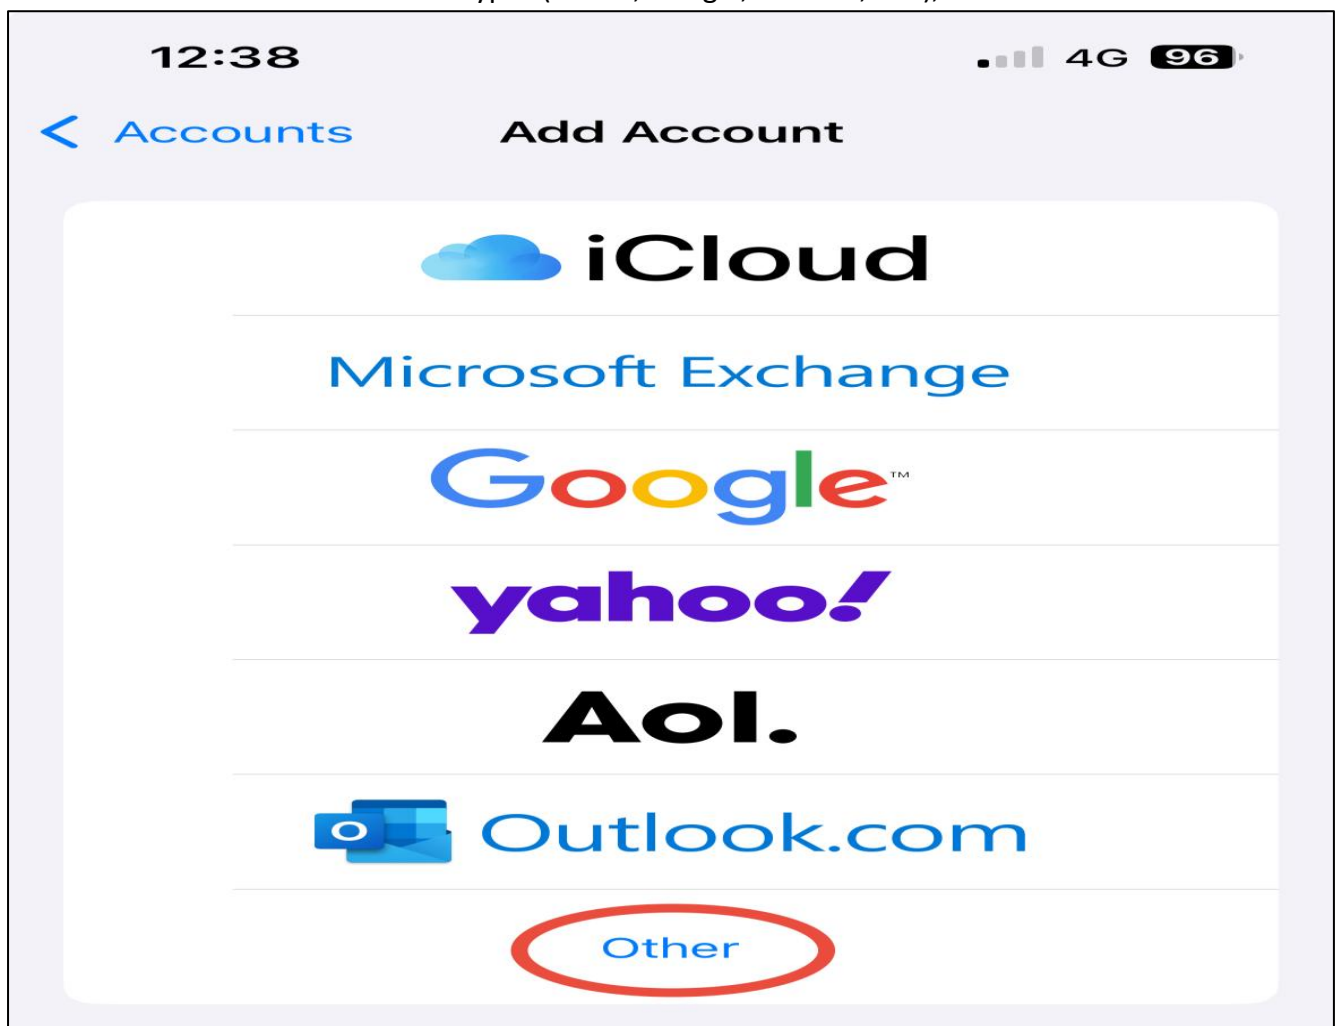

4. Click on **Add Account**

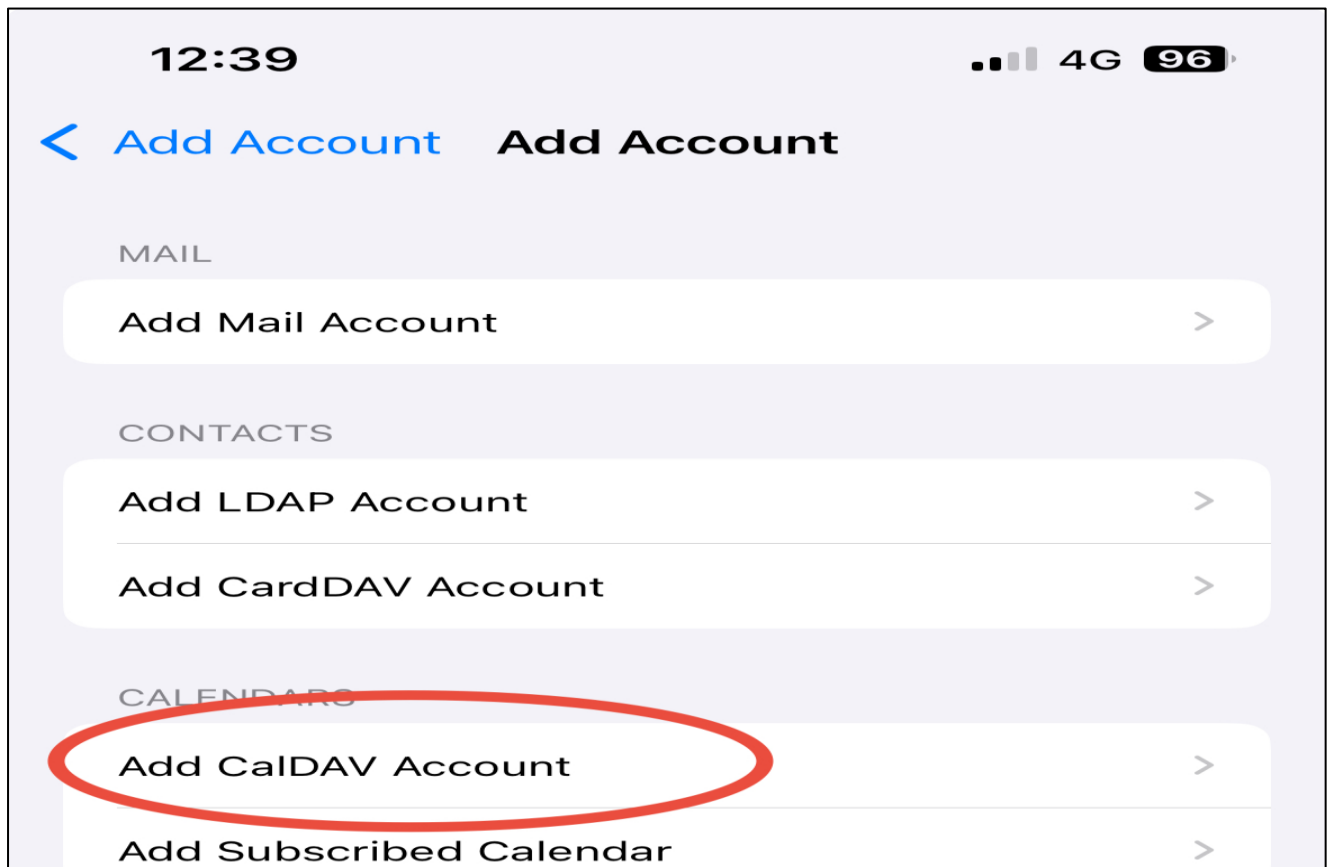

5. Click on **Other**

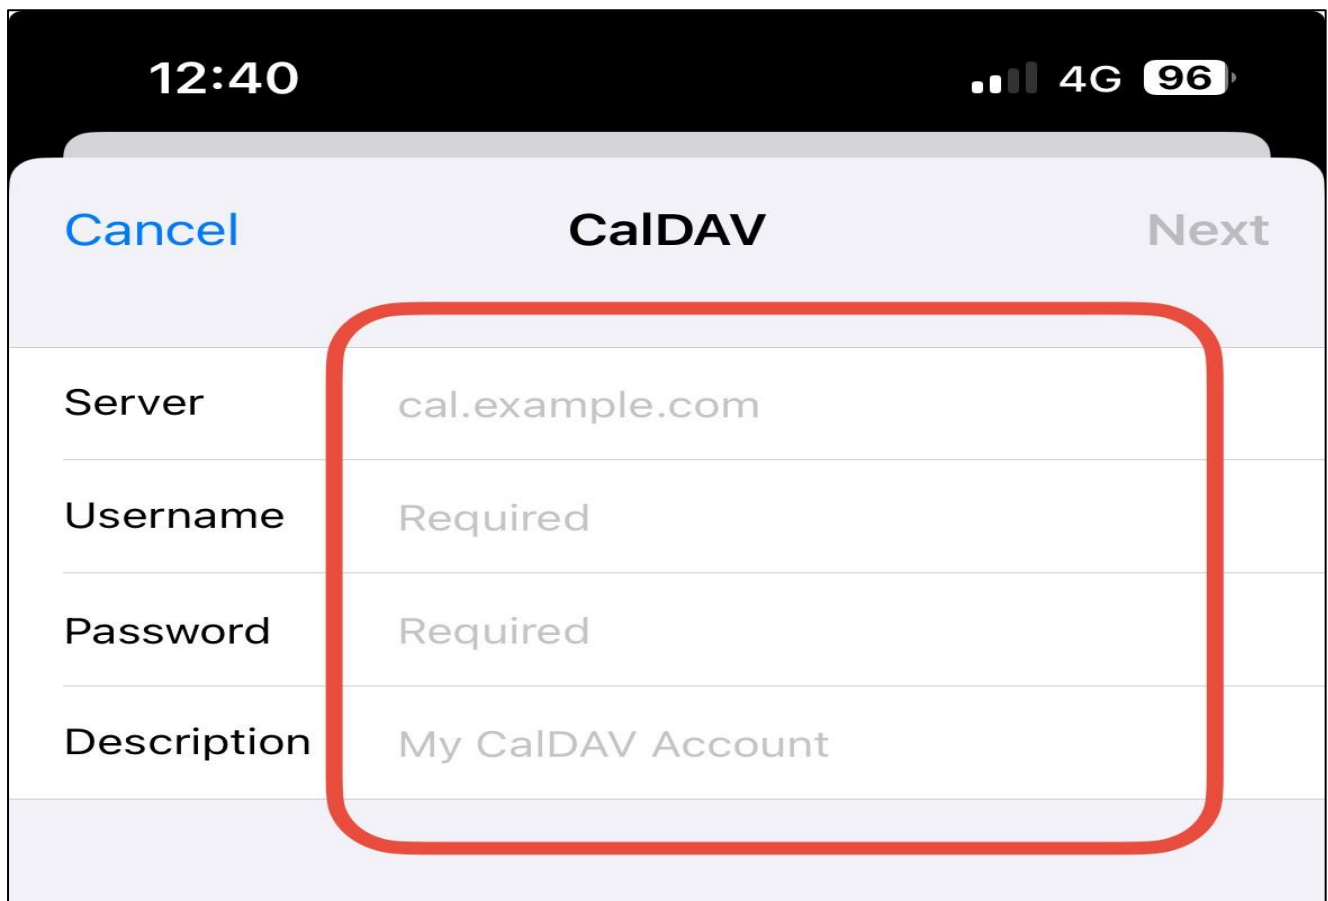

- From the list of account types (iCloud, Google, Outlook, etc.), choose **Other** at the bottom.

6. Click on **Add CalDAV Account**

7. Fill the required details

8. After filling required details click on **Next**
